

## Rex-Royal S2 MCSTI

## Rex-Royal S2 MCSTI

The S2 MCSTI leaves nothing to be desired. Using its efficient Rex-Royal milk system, this MCT model makes fresh milk into a fine-pored froth at the push of a button. That means it can combine any milk speciality, such as a cappuccino or latte macchiato, in perfect quality, even as a double product.

In addition to the efficient Rex-Royal milk system, the S2 MCTI can create a range of other drinks like chocolate and/or vanilla creations using an instant module integrated into the coffee machine. With the high-performance steam wand, you can froth up fresh milk yourself in an instant. Using the professional Rex-Royal tea/steam boiler with an hourly hot water output of up to 28 litres, it is possible to make tea and coffee at the same time.

A variety of possible combinations and options such as various compressor fridges, cup warmers, cup dispensers, etc., make it possible for every user to adjust the S2 MCST to meet their requirements. The automatic, HACCP-certified cleaning process guarantees the machine will run in a perfectly hygienic way with minimal time expenditure.

### Features

M- Fresh Milk

I- Instant

S- Steam

T- Hot Water

C- Coffee

### Advantages

#### High-quality metal brewing unit

Premium coffee quality thanks to the high-quality, more powerful Rex-Royal metal brewing unit with a capacity of 16 grams of ground coffee per brewing operation
