

Rex-Royal S300 MCT

Rex-Royal S300 MCT

With the intelligent Rex-Royal milk system, on all „M" version machines you can purchase your coffee and milk beverages simultaneously and from one beverage outlet. The Rex-Royal S300 MCT is therefore particularly well suited for self-service. The advanced Rex-Royal milk system guarantees delicate foam of the highest standard. The beverage outlet can be easily opened and cleaned. You can choose from a wide range of fridges as add-on units. All S300 models can be combined with the S500 model series.

Features

M- Fresh Milk

T- Hot Water

C- Coffee

Advantages

Simultaneous dispensing of hot water and two coffee products

Possible to simultaneously supply hot water and coffees, even as a double product

Sales promotion on TouchScreen

Place advertising messages and ambient images on the display

Wonderful fine-pored milk foam

Make fresh milk into a perfect-quality fine-pored froth

Heated coffee outlet

With the optional heated coffee spout, a perfect, hot espresso is guaranteed, even if the machine isn't used for a long time

Add-On units

With options like cup warmers, cup dispensers and mobile solutions, the Rex-Royal coffee machines are perfectly suited to meet your requirements

Video-capable 10-inch TouchScreen

Intuitive menu navigation thanks to the 10-inch touch screen for the simple and efficient selection of a drink from a range of up to 24 products

Short maintenance times

Modular construction for short intervention and maintenance times for a long-term and secure investment

Refrigerator units for 4, 7, 9 or 10 liter fresh milk - (S300 & S500)

A variety of cooling units with a fresh milk capacity of 4, 7, 9 or 10 litres. The 10-litre compressor fridge can also be used under the sideboard.

Automatic height adjustable drinks outlet

Due to the automatic outlet, the front of the machine keeps always clean. This because the outlet positions himself always at the right height of the cup or the tea-glass

Highest hygiene standards

Automatic, HACCP-certified cleaning process guarantees the machine will run in a perfectly hygienic way with minimal time expenditure
