

Rex-Royal S500 MCST

Rex-Royal S500 MCST

With the high-performance Rex-Royal S500 MCST, you enhance the CST model (coffee, steam and hot water) with the Rex-Royal "M" fresh milk system. Whether you would like to manually steam the milk like a barista or prefer to prepare it at the touch of a button – the choice is yours. With a comfortable working width of 45 cm this becomes easy. The high-performance boilers for hot water and steam assure consistent product quality with single and double drinks and at the same time as hot water you are also able to produce coffee or mixed products. Equipped with two precise grinders as standard, all S500 models can be optionally equipped with a third grinder. Cups can be warmed on the heated shelf provided.

Features

M- Fresh Milk

S- Steam

T- Hot Water

C- Coffee

Advantages

Simultaneous dispensing of hot water, steam and two coffee products

Possible to simultaneously supply hot water, steam and 2 coffees

Video-capable 10-inch TouchScreen

Intuitive menu navigation thanks to the 10-inch touch screen for the simple and efficient selection of a drink from a range of up to 24 products

Short maintenance times

Modular construction for short intervention and maintenance times for a long-term and secure investment

Temperature monitored automatic foaming

Optional PowerSteam frother to automatically froth up the fresh milk and monitor the temperature

Refrigerator units for 4, 7, 9 or 10 liter fresh milk - (S300 & S500)

A variety of cooling units with a fresh milk capacity of 4, 7, 9 or 10 litres. The 10-litre compressor fridge can also be used under the sideboard.

Third grinder optional available

Can be optionally equipped with a third grinder

58 l/h hot water supply

Hot water capacity at a rate of up to 58 litres per hour

Sales promotion on TouchScreen

Place advertising messages and ambient images on the display

Barista steam lance as fresh milk foamer

Barista steam wand to froth up fresh milk

Wonderful fine-pored milk foam

Make fresh milk into a perfect-quality fine-pored froth

Standardly equipped with two grinders

Equipped with two precise, quiet and powerful grinders as standard

Automatic height adjustable drinks outlet

Due to the automatic outlet, the front of the machine

keeps always clean. This because the outlet positions himself always at the right hight of the cup or the tea-glass

Add-On units

With options like cup warmers, cup dispensers and mobile solutions, the Rex-Royal coffee machines are perfectly suited to meet your requirements

Highest hygiene standards

Automatic, HACCP-certified cleaning process guarantees the machine will run in a perfectly hygienic way with minimal time expenditure
